Science

Scientific Enquiry
How we see things - In this unit children learn that mirrors and shiny surfaces alter the direction in which light travels and that when they see objects, light enters the eye. Children contrast reflection and shadow formation.
We will also be linking this unit to the Blackouts in WWII.

Religious Education

Worship and Community: Sikhism
Why are sacred texts important?

Design and Technology

Shelters: In this unit, children will learn about structures; how they can fail when loaded the use of techniques for reinforcing and strengthening structures. The main outcome of this unit will be the design and construction of a framework-type shelter for an identified purpose. We will be looking at structures in the context of our topic on WWII and the different types of air raid shelters e.g. Anderson and Morrison shelters.
